stainless cap. The thermistor inside has glass encapsulation to ensure long time operation, wide temperature range, and no parameter drift of either short time or long term. The cap is made of metal, making them long time lasting even under harsh environment, such as acid, moisture, etc. The output terminals use a pair of heavy duty PVC insulated wires of 26 AWG. The length of the wires can be specified. The cap can be customized according to customers need.

### SPECIFICATIONS

Parameters	Value
Nominal Resistance @ 25°C	10K ± 1%
B Value @ 25°C / 50°C	3950K ± 1%
B Value @ 25°C / 85°C	3990K ± 1%
R@25°C / R@50°C	2.771
R@25°C / R@85°C	9.271
Metal Head Length	60 ± 0.1mm
Metal Head Diameter	4 ± 0.1mm
Lead Diameter	1.5mm(26AWG)
Lead Length	150mm(can be customized)
Insulation Resistance	50MΩ
Time Constant	37.8s (in still air) 1.13s (in water)

### MAIN FEATURES

- Glass Encapsulated for Long Term Stability & Reliability
- High Resistance Accuracy: 1%
- Maximum Temp. Range: -40°C to 200°C
- Packaged in Extra Small Metal Shell
- 100 % Lead (Pb)-free and RoHS Compliant

### APPLICATION AREAS

Temperature Sensing  
 Temperature Detection  
 Transformers  
 Electric Motors  
 Air Sensors

### DESCRIPTIONS

The ATSC10KF1-S5 thermistor assembly is housed by a

**NOTICE**

- ATI reserves the right to make changes to its products or to discontinue any product or service without notice, and advise customers to obtain the latest version of relevant information to verify, before placing orders, that information being relied on is current and complete.
- All products are sold subject to the terms and conditions of sale supplied at the time of order acknowledgment, including those pertaining to warranty, patent infringement, and limitation of liability. Testing and other quality control techniques are utilized to the extent ATI deems necessary to support this warranty. Specific testing of all parameters of each device is not necessarily performed, except those mandated by government requirements.
- Customers are responsible for their applications using ATI components. In order to minimize risks associated with the customers' applications, adequate design and operating safeguards must be provided by the customers to minimize inherent or procedural hazards. ATI assumes no liability for applications assistance or customer product design.
- ATI does not warrant or represent that any license, either express or implied, is granted under any patent right, copyright, mask work right, or other intellectual property right of ATI covering or relating to any combination, machine, or process in which such products or services might be or are used. ATI's publication of information regarding any third party's products or services does not constitute ATI's approval, warranty or endorsement thereof.
- IP (Intellectual Property) Ownership: ATI retains the ownership of full rights for special technologies and/or techniques embedded in its products, the designs for mechanics, optics, plus all modifications, improvements, and inventions made by ATI for its products and/or projects.
